### Latest research

- Attention and awareness in stage magic: turning tricks into research *Nature Reviews Neuroscience*
- Gaddum and LSD: the birth and growth of experimental and clinical neuropharmacology research on 5-HT in the UK **FREE** *British Journal of Pharmacology*
- High bacterivory by the smallest phytoplankton in the North Atlantic Ocean *Nature*

### Special Feature

#### Web Focus and Special Feature on Dendritic Cells

Brought to you by *Immunology & Cell Biology*, this web focus outlines the current understanding of DC heterogeneity and dives into the realm of T cell responses and functional diversity. The accompanying two-part special feature identifies the gaps in our understanding and the potential this holds for the future.
