Barrow Scientists Make Headlines for Their Research on Fixational Eye Movements
7/25/2007

Susana Martinez-Conde, Ph.D., director of the Laboratory of Visual Neuroscience, and Stephen Macknik, Ph.D., director of the Laboratory of Behavioral Neurophysiology at Barrow Neurological Institute at St. Joseph's Hospital and Medical Center, are featured on the cover of the August issue of Scientific American for their research on fixational eye movements. The pair was also featured in a recent issue of the Wall Street Journal. "Scientific American is considered by many to be the Rolling Stone magazine of science," says Dr. Macknik. "It is a honor in our career to be featured in such a prestigious publication."
